- Git & GitHub

CERTIFICATIONS

Full Stack Web Development

Interactive Cares

Frontend Web Development

Programming Hero

Cyber Security Professional Training

IT Business Incubator, CUET & Diligite Ltd.

Aspire SkillUp Digital Skills Training

Aspire Education Foundation

PROFILE

Frontend-focused web developer skilled in React, JavaScript, and Python/Django, with a strong portfolio of deployed web applications spanning dashboards, trackers, and utility tools. Experienced across junior development work, freelance client projects, and AI automation projects, with a solid foundation in cybersecurity and digital skills training. Quick learner who enjoys shipping clean, functional, and well-designed products.

EXPERIENCE

AI Automation Projects

Independent

- Built automation-driven and AI-integrated tools and workflows, applying scripting and API integration to streamline repetitive tasks.
- Explored practical applications of AI within web projects to enhance functionality and user experience.

Freelance Web Developer

Freelance Projects

- Delivered custom frontend and full-stack web applications for independent clients using React, JavaScript, HTML, CSS, and Bootstrap.
- Managed projects end-to-end — from requirement gathering and UI design to deployment on Vercel and Netlify.

Junior Web Developer

Early Career

- Built and maintained responsive websites and web applications using HTML, CSS, JavaScript, and React.
- Collaborated on frontend features, debugging, and version control using Git and GitHub.
