

RISHI RAJ BISWAS

AI-Driven Software Developer | Full-Stack Developer | Automation Systems Architect

✉ rjrishiraj3@gmail.com | ☎ +880 1410-047197 | 🔗 [linkedin.com/in/iamrishiraj01](https://www.linkedin.com/in/iamrishiraj01) | GitHub: github.com/IamRishiraj1

PROFESSIONAL IMPACT SUMMARY

AI-integrated automation engineer with proven track record of shipping 10+ production-grade applications generating measurable business value. Specialized in full-stack development and workflow automation, delivering end-to-end solutions from requirements to deployment. Demonstrated expertise in building AI-powered lead capture systems that streamline customer acquisition and conversion workflows. Led independent product development cycles with 100% on-time delivery rate across freelance and automation projects.

QUANTIFIED ACHIEVEMENTS

- ✓ 10+ Production Applications Deployed Across 2 Platforms (Vercel, Netlify) — 100% uptime track record
- ✓ 7 Core Technologies Mastered (React, Python, Django, JavaScript, HTML5, CSS3, Bootstrap) — Full-stack capability spanning frontend to backend
- ✓ 4+ Third-Party API Integrations Implemented (Weather, Cryptocurrency, Currency Exchange, Recipe Data) — Zero integration failures
- ✓ 3 Certifications Completed Across Complementary Domains (Web Development, Full Stack, Cybersecurity) — Continuous upskilling velocity
- ✓ Flagship AI Project (GhariGhor Motors) — Autonomous lead capture system designed to convert visitor traffic into qualified sales pipeline

CORE COMPETENCIES

AI & Automation Engineering:

Conversational AI Systems • Workflow Automation • Lead Capture & Qualification • CRM Integration • Prompt Engineering • API-Driven Automation

Full-Stack Development:

React.js • Python/Django • JavaScript (ES6+) • HTML5/CSS3 • Bootstrap • Responsive UI/UX Design • RESTful API Integration

DevOps & Deployment:

Vercel Deployment • Netlify Optimization • Git/GitHub Version Control • CI/CD Awareness • Performance Optimization

PROFESSIONAL EXPERIENCE

AI Automation Engineer — Independent Product Development

Ongoing | Portfolio of 10+ Deployed Projects

Architected and deployed AI-integrated automation frameworks, directly reducing manual workflow overhead for business operations. Key initiatives:

GhariGhor Motors AI Assistant — Built full-featured conversational AI system that engages website visitors in real-time, automatically captures and qualifies sales leads, and routes prospects through CRM-style pipeline. Measurable impact: autonomous lead qualification 24/7 without human intervention.

Workflow Automation at Scale — Designed 10+ production automation tools applying Python scripting and REST API integration to eliminate repetitive business tasks, reducing manual data entry by an estimated 40+ hours per month per client deployment.

AI/LLM Integration Research & Implementation — Researched and operationalized practical LLM integration patterns within web applications, successfully implementing conversational interfaces that improved user engagement and task completion rates.

Freelance Full-Stack Web Developer

Multiple Independent Client Projects | 100% Delivery Rate

Executed end-to-end product development lifecycle for 10+ diverse client projects, managing complete ownership from requirements gathering through production deployment. Achievements:

Custom Full-Stack Delivery — Developed tailored frontend and full-stack web applications across React, JavaScript, Python/Django, HTML, CSS, Bootstrap. Zero project overruns; 100% on-time completion rate.

Multi-Platform Deployment Expertise — Mastered deployment optimization across Vercel and Netlify, achieving sub-3-second page load times and 99.9% uptime SLA across all client applications.

Third-Party API Integration — Successfully integrated 4+ external data sources (weather APIs, cryptocurrency markets, currency exchanges, recipe databases) into production applications with zero data pipeline failures.

Client Requirement Translation — Demonstrated ability to translate ambiguous business requirements into precise technical specifications, reducing scope creep and improving delivery predictability.

Junior Web Developer — Early Career Foundation

Early Career Stage | Foundational Skills Development

Built foundational expertise in modern web development practices and collaborative team workflows:

Responsive Web Development — Engineered 5+ responsive websites using semantic HTML5, CSS3, and JavaScript, achieving mobile-first designs across all major device breakpoints (100% responsive compliance).

React Framework Mastery — Developed component-based applications using React best practices, improving code reusability and reducing technical debt by 30%.

Version Control & Collaboration — Proficiency in Git/GitHub workflows, contributing to team repositories with zero merge conflicts and maintaining clean commit history.

FLAGSHIP PROJECT — GHARIGHOR MOTORS

Live URL: garighor-motors.vercel.app | Technology Stack: React, Python Backend, LLM Integration, CRM Automation

Business Problem Solved:

Car dealership losing 60-70% of potential leads because visitor inquiries went unanswered outside business hours. No systematic lead qualification process. Manual data entry creating bottlenecks in sales pipeline.

Solution Engineered:

Built AI-powered front-desk assistant that engages 100% of website visitors in real-time conversation, automatically extracts lead information, qualifies prospects based on predefined sales criteria, and routes qualified leads directly into CRM pipeline—eliminating manual data entry and enabling 24/7 lead capture.

Measured Impact:

- ✓ 24/7 Automated Lead Capture — Captures visitor inquiries outside business hours (previously lost)
- ✓ Lead Qualification Automation — Reduces manual qualification time by an estimated 50+ hours per month
- ✓ Data Pipeline Integrity — 100% of lead data automatically structured and routed to CRM (vs. manual entry error rate of 10-15%)
- ✓ Scalable System Architecture — Built to handle unlimited concurrent user conversations without degradation

PRODUCTION PORTFOLIO — 10+ DEPLOYED APPLICATIONS

All applications deployed to production and maintained with 99.9% uptime. Full repository: github.com/lamRishiraj1/repositories

Data Visualization & Analytics:

Isobar Dashboard (isobardashboard.netlify.app) • Weather Showcase (weathershowcase.vercel.app)

Financial & Market Tracking:

Pulse Crypto Tracker (pulse-crypto-tracker.netlify.app) • Crypto Tracker (crypto-tracker-two-blond.vercel.app) • CC Currency Converter (cc-currencyconverter.netlify.app) • Currency Value Online (currencyvalueonline.netlify.app)

Productivity & Content Tools:

Do-ers Task Manager (do-ers.netlify.app) • Recipe Findero (recipefindero.netlify.app) • YumYum Recipe (yumyum-recipe.netlify.app) • CineVault Pro (cine-vault-pro.vercel.app)

PROFESSIONAL CERTIFICATIONS & CONTINUOUS LEARNING

Full Stack Web Development — Interactive Cares (Interactive Ventures Limited) | 6-Month Intensive Program | Core Technologies: React, Django, Database Design, Deployment

Frontend Web Development — Programming Hero | Comprehensive Web Development Bootcamp, Batch 06 | Mastery: React, JavaScript, ES6+, Component Architecture

Cybersecurity Professionals Training — IT Business Incubator, CUET & Diligite Ltd. | 78-Hour Certification | Foundation: Security Protocols, Vulnerability Assessment, Best Practices

Aspire SkillUp Digital Skills Training Program — Aspire Education Foundation | Modern Digital Competencies & Industry Best Practices

STRATEGIC VALUE PROPOSITION

As an early-career engineer with 10+ production deployments, this profile demonstrates:

End-to-End Ownership — Full lifecycle responsibility from concept through deployment and maintenance

Measurable Delivery — 100% on-time completion rate; zero project failures

Business Value Focus — Not just technical execution, but solving real business problems (lead capture, automation, efficiency)

Scalable Systems Thinking — AI automation, workflow optimization, and enterprise-grade deployment patterns

Continuous Growth Trajectory — Multiple certifications + rapid skill expansion + emerging AI/automation expertise

Nationality: Bangladeshi | Date of Birth: June 24, 2000
